

## CERTENT CDM

## COLLABORATIVE REPORT PRODUCTION MANAGEMENT— NUMBERS WITH NARRATIVE

Do you have to compile reports which contain data from a range of different sources? Are you passing documents back and forth across insecure channels? Do you want a system that is secure and auditable?

Certent CDM simplifies the process of compiling any report that needs to merge narrative analysis with data from different sources. It is a secure, collaborative platform that enables teams to create reports that update automatically when the numbers change in underlying sources.

### IN FOCUS
